

Internship Program Admissions

Date Program Tables are updated:

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

Psychology Interns provide individual and group counseling to forensic and non forensic clients in both an outpatient mental health agency and in community corrections facilities. Psychology interns work with male and female clients who have committed sexual offenses, as well as working with male and female domestic violence perpetrators. Interns need to be open to working with forensic clients in a structured and respectful manner. Interns also conduct forensic psychological evaluations and work closely with referral sources. Applicants are invited for interviews where they will meet both with supervisors and with current interns so they can best assess their fit with the program.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Total Direct Contact Intervention Hours		yes	40% - 16 hours weekly
Total Direct Contact Assessment Hours		yes	10% - 4 hours weekly

Describe any other required minimum criteria used to screen applicants:

The internship prefers that applicants have some familiarity (classroom or practicum) with intelligence and personality testing. The internship requests 2 work samples at the time of application - with a preference for at least one to be a psychological evaluation.
